

Sustainable Digital Transformations 2022- Trondheim

Theme for the 2022 seminar:
Healthcare and Welfare Services

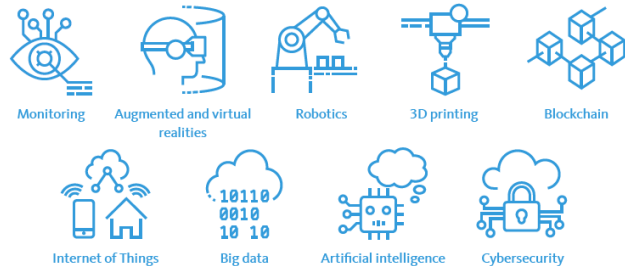

What is it?

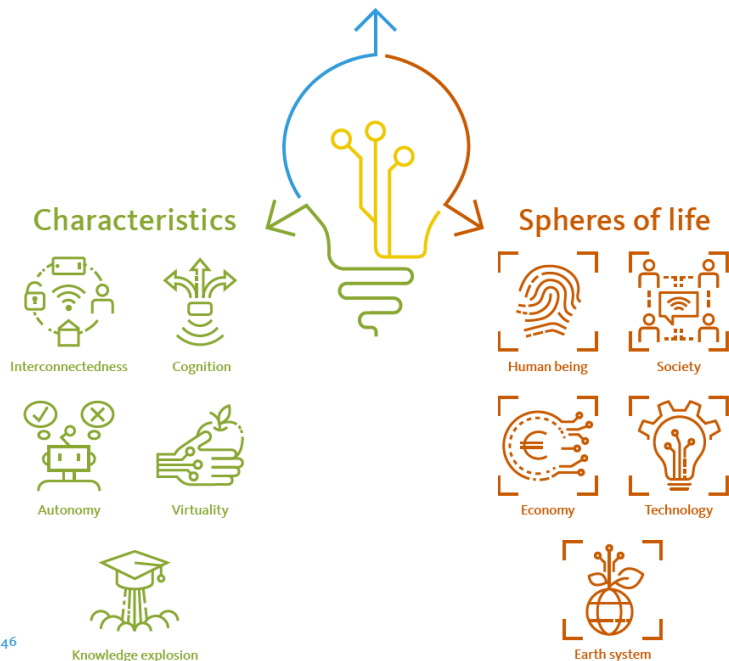

- Long-term impact of digitalization on **social and human capital**.
- How digitalization affects **trust relationships** in our societies.
- A forum for **research-based reflecting** on how we digitalize!

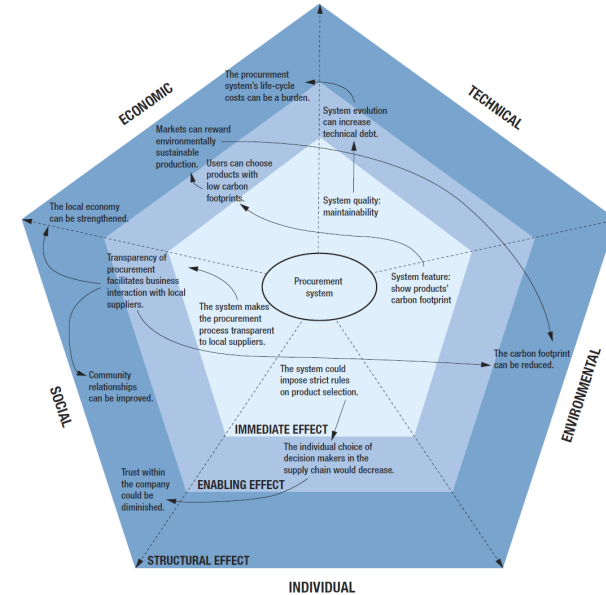

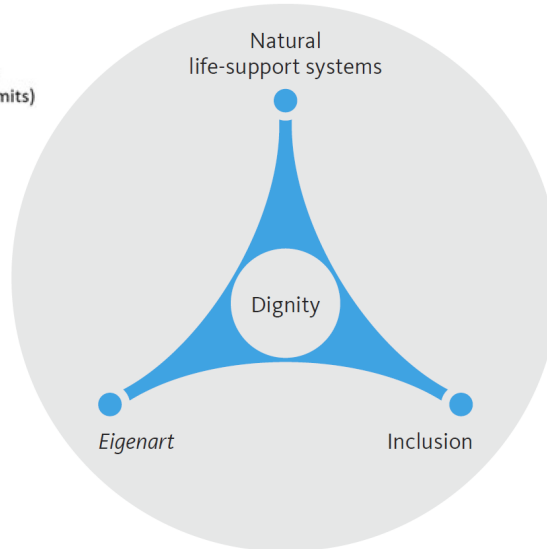

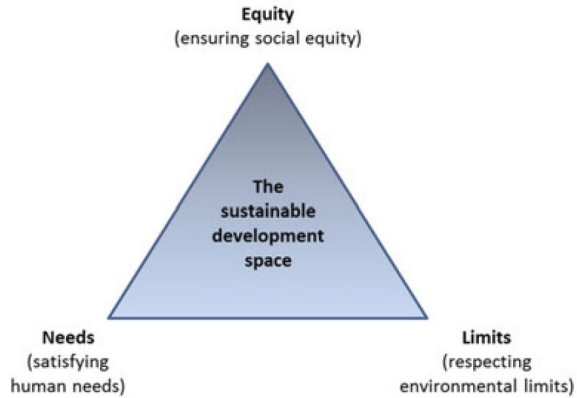

Technologies as more than just tools

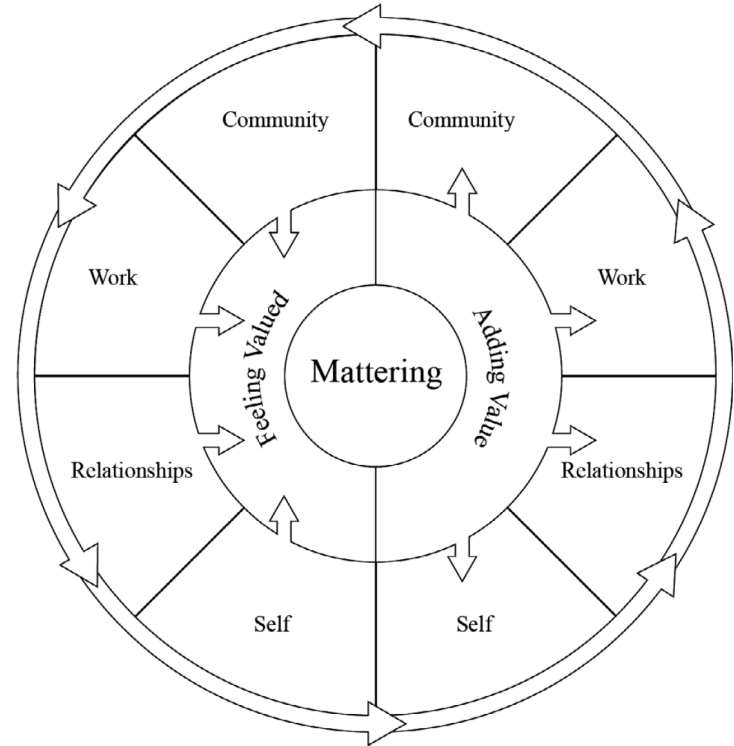

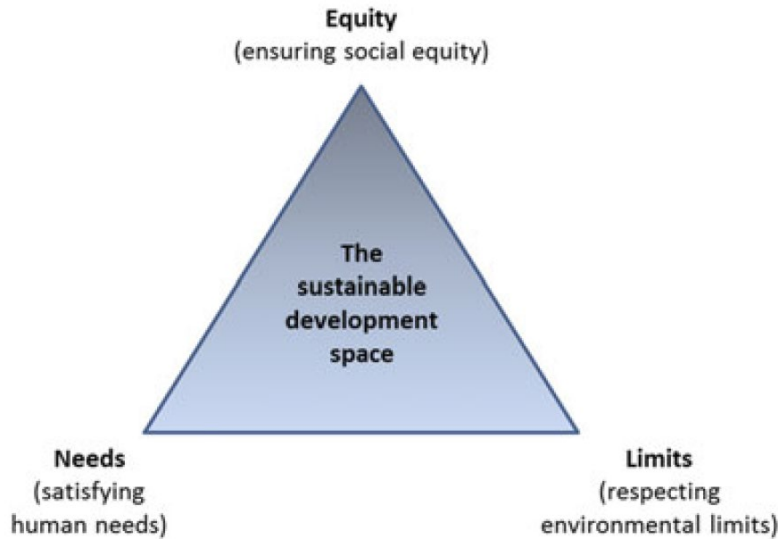

Key technologies

From sustainability to sustainable digitalization

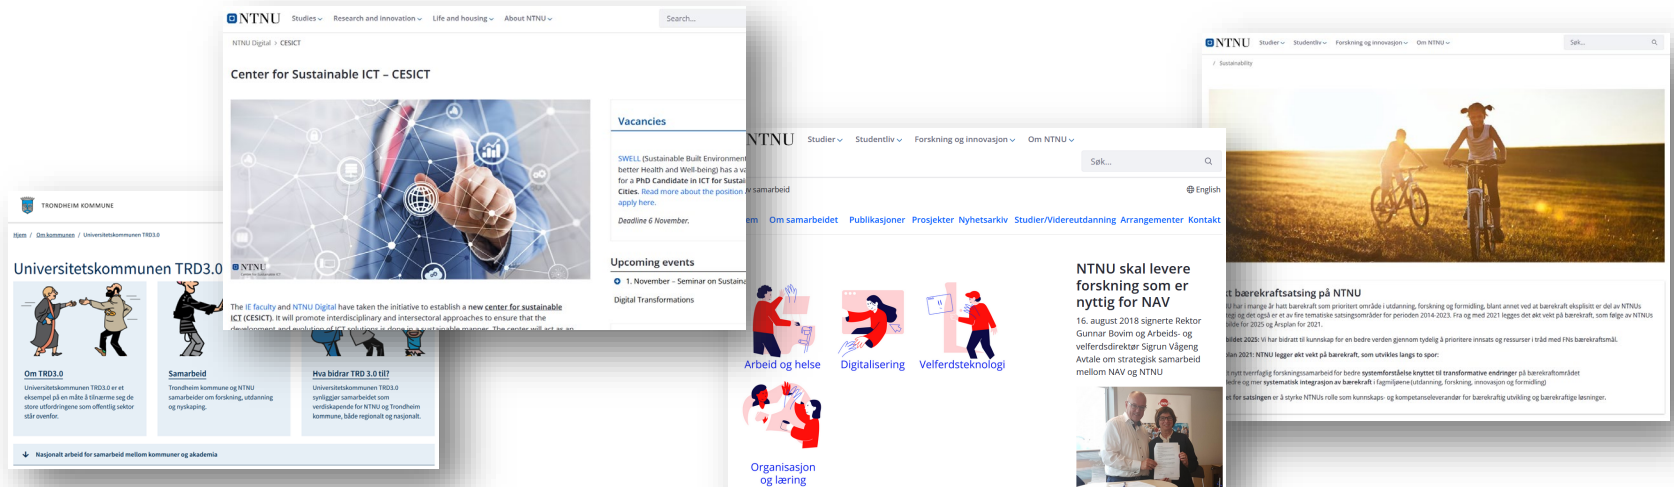

Healthcare and Welfare Services

Background for the seminar

Seminar Series on Sustainable Digital Transformations (Starting 2022)

The collage features several overlapping screenshots from the NTNU website:

- Center for Sustainable ICT - CESICT:** A page announcing the establishment of a new center for sustainable ICT, featuring a hand pointing at a digital interface with various icons.
- Vacancies:** A listing for a PhD Candidate in ICT for Sustainable Cities, with a deadline of 6 November.
- Upcoming events:** A notice for a seminar on Sustainable Digital Transformations on 1. November.
- NTNU skal levere forskning som er nyttig for NAV:** An announcement from August 2018 regarding a strategic collaboration between NAV and NTNU.
- Arbeid og helse, Digitalisering, Velferdsteknologi:** A section with colorful icons representing these themes.
- Organisasjon og læring:** A section with an icon of people interacting.
- TRONDHEIM KOMMUNE:** A page for the University of Applied Sciences TRD3.0, discussing collaboration between the municipality and the university.
- Samarbeid:** A section titled 'Hva bidrar TRD 3.0 til?' (What does TRD 3.0 contribute to?).
- Bærekraftsatsning på NTNU:** A page detailing the university's sustainability strategy, including research and innovation.

The aims of the seminars

- Bring together **researchers and practitioners** who are interested in the sustainability aspects of our digital technologies.
- Intended for **early career researchers** such as postdocs, Phd candidate and master students.
- Create **a dialog about your research** in form of face-to-face meetings with experts in the subject area.
- Create **long-term engaged collaborations** among researchers and practitioners.

Program (1/3)

09.15	Keynote 1: Ida Bing Løberg, NAV: Digital frontline work
09.45	Anne Wullum Aasback, NTNU: Hvordan opplever brukerne digital kommunikasjon med veiledere i Nav?

12:15	Morteza Moalagh, NTNU: Scaled Agile Transformation and Social Sustainability of Digital Transformation
12:30	Lunch break, 1 hour.

Program (3/3)

13.30	Group discussions.
14.30	Group presentations in panel.
15:00	Coffee break.
15:15	Panel discussion.
12:15	Morteza Moalagh, NTNU: Scaled Agile Transformation and Social Sustainability of Digital Transformation
12:30	Lunch break, 1 hour.

Group discussions: Questions

1. What do you perceive as challenges in digital transformations?
2. How has your organization/case study faced these challenges?
3. What are the research questions NTNU could help answer related to these challenges?
4. What do you think are best forms of collaboration between practitioners and researchers?

Participate!

- We want to grow the community.
- Get involved as you can.
- Some roles we have envisaged so far:
 - Participate in quality assuring the seminars.
 - Participate with case studies from your own practice/research.
 - Help shepherd others' contributions.
- Suggest new roles!

**THANK YOU FOR YOUR
PARTICIPATION!**
